Shaded groups are movt's that have the same Seth Thomas #'s but are different Hermle movt's, depending on style of the movt.

* Measure handshaft length
 ** Avail. only with staggered arbors
 *** Please mention if front or rear pendulum

φ Hammers are in new location

Before ordering, always check movement descriptions.

*The shutoff on the old unit was made at the 3,6 and 12 o'clock positions. The new unit has a shutoff at the 3 o'clock position only. Attach a brass rod to the shutoff and drop behind the dial into the case to change chime selector if necessary.

**The new unit has a time winding hole about 1/2 inch below the original. It is necessary to modify the dial to accommodate this. In addition the new unit has a time winding drum slightly below the level of the bottom of the unit requiring that the seatboard be "dished out" that area.

Note 1: On both the UW32 and UW3 series the / mark is interchangeable with "0". That is the UW32/1 is the same as the UW32001.

Note 2: On all Urgos movements a letter follows the UW#. These are all interchangeable.

The letter "A" indicates dead beat, all other letters B,C,D,E are automatic beat.

Note 3: If you have a number for which there is no cross reference, we need the following information:

- UW#
- Chain or cable wind
- Westminster or triple chime
- Handshaft from the plate to tip in mm

Length of the pendulum from the suspension post to the tip in cm or the bph

URGOS CROSS REFERENCE FOR UW06 WESTMINSTER AND TRIPLE CHIME
